

FOR IMMEDIATE RELEASE

SPITFIRE CONTROLS ANNOUNCES DIRECTOR OF QUALITY APPOINTMENT

Allen Abell can take Spitfire's quality systems to new heights, offering customers a better control and experience.

Carpentersville, IL, June 11, 2010 - Spitfire Controls, Inc., North America's leading independent producer of electronic appliance controls, proudly announced that Allen Abell was hired as the new Director of Quality. Effective June 1, 2010 will be responsible for leading Spitfire's continued commitment to providing customers with the highest quality controls and service for quality needs.

"Joining Spitfire is a tremendous opportunity," said Abell. "I am excited to help the company, already a leader in product quality, to grow with a renewed quality mentality and solid foundation."

Abell brings years of experience to Spitfire as in quality management, and spent the last four as a Quality Engineering Manager of Communications Accessories with Otto Engineering in Carpentersville, IL. He also holds a B.S. from Iowa State University in Electrical Engineering. Jay Ramsey, President of Spitfire Controls, added, "I'm elated that Allen has joined our team. What makes Spitfire such a great organization is that we boast one of the most collectively experienced teams of people, and Allen is a great addition."

Spitfire Controls, Inc. has offices in the Chicago, IL area and factories in Vietnam, China, and Mexico. Spitfire Controls is an ISO 9001:2008 registered organization. More information can be found at <http://www.spitfirecontrols.com>.
